

## Hardware and Vest: Safety Information and Warranty Limitations

### Warranty Conditions and Limitations of Use - Hardware

#### 1. Subject of the Warranty

- 1.1. This warranty covers only manufacturing defects and hardware malfunctions attributable to the manufacturer.
- 1.2. The warranty is valid for a limited period of time and in accordance with the regulations in force in the country of purchase.
- 1.3. All conditions indicated in section **3. Warranty Limitations and Exclusions** are excluded from the warranty.

---

#### 2. Duration of the Warranty

- 2.1. The duration of the warranty is defined by the manufacturer and specified in the purchase documentation.
- 2.2. The warranty period begins on the date indicated on the proof of purchase (invoice or receipt).
- 2.3. The warranty cannot be extended or renewed following repairs or replacements, unless otherwise specified by the manufacturer.

---

#### 3. Warranty Limitations and Exclusions

The warranty does not cover any differences in colour, material or appearance that may be present in advertisements, catalogues or on the Internet, which were not the subject of a specific written request at the time of signing the Contract.

If a requested product is not available, K-Sport reserves the right to supply an equivalent replacement product.

##### 3.1. Physical and environmental damage

- 3.1.1. Damage caused by falls, impacts, pressure or vibrations is not covered.
- 3.1.2. Exposure to extreme temperatures or direct sunlight is not covered.
- 3.1.3. Exposure to liquids, moisture, snow, ice or condensation is not covered.
- 3.1.4. Damage caused by dust, sand or abrasive particles is not covered.
- 3.1.5. Damage caused by fire, flood, lightning or natural disasters is not covered.

##### 3.2. Misuse and tampering

- 3.2.1. Disassembly, opening or repairs by unauthorised centres will invalidate the warranty.
- 3.2.2. The use of non-original or non-certified accessories (cables, batteries, chargers) will invalidate the warranty.
- 3.2.3. Improper use of connectors is not covered.
- 3.2.4. Unauthorised battery replacement will invalidate the warranty.
- 3.2.5. Tampering with labels or serial codes.

## SCIENCE TO PERFORM

### 3.3. Software and systems

- 3.3.1. Installation of modified firmware, root, jailbreak or unofficial software will void the warranty.
- 3.3.2. Damage resulting from malware, unofficial applications or security breaches is not covered.
- 3.3.3. Data loss or the need for software restoration due to improper user actions are not covered.

### 3.4. Battery and charging

- 3.4.1. Natural wear and tear of the battery is not covered.
- 3.4.2. Damage caused by faulty or non-compliant chargers is not covered.
- 3.4.3. Overcharging, power surges or use with unstabilised generators void the warranty.
- 3.4.4. Charging the device in unsuitable environments (humid, high temperature) is not permitted.

### 3.5. Prohibited and dangerous uses

- 3.5.1. Use in explosive or flammable environments or at petrol stations is prohibited.
- 3.5.2. Use in the vicinity of sensitive medical equipment is prohibited.
- 3.5.3. Use as a medical or critical safety device is not permitted.
- 3.5.4. Use in critical aeronautical, railway, naval or industrial environments is prohibited.
- 3.5.5. Use in uncertified military or government applications is not permitted.

### 3.6. Special conditions of use

- 3.6.1. Do not use the device as a mechanical support or base.
- 3.6.2. Do not expose the device to microwaves, ovens, washing machines or tumble dryers.
- 3.6.3. Do not use the device in industrial environments with continuous vibrations or fine dust.
- 3.6.4. Do not connect the device to improvised or uncertified power sources (e.g. homemade solar panels).
- 3.6.5. Do not expose the device to chemicals, oils, greases or solvents.

---

## 4. User Responsibility

- 4.1. The user is responsible for the proper storage of the proof of purchase.
- 4.2. The user is responsible for backing up personal data entered and for keeping passwords safe.
- 4.3. The user must comply with all official instructions from the
- 4.4. Any non-compliant use automatically voids the warranty.

---

## 5. Improper Use (Complete List)

For clarity, the following points are specific examples of improper, dangerous or non-warranty uses:

- **5.1 – 5.20:** Physical, environmental and impact damage.
- **5.21 – 5.37:** Improper use, uncertified accessories and unauthorised software.
- **5.38 – 5.53:** Hazardous use in explosive, medical or industrial environments.

## SCIENCE TO PERFORM

- **5.54 – 5.66:** Special charging, handling and storage conditions.
- **5.67 – 5.76:** Extreme, illegal or non-compliant uses, various.

---

**See attached list**

### **6. Disclaimer**

6.1. The manufacturer is not liable for indirect, incidental or consequential damages resulting from improper use of the device.

6.2. The manufacturer is not liable for damage to persons, animals or property resulting from improper use.

6.3. The manufacturer is not liable for any violations of law committed by the user through the use of the device.

---

## Appendix – Detailed List of Prohibited Uses

1. The warranty does not cover damage resulting from drops, impacts, vibrations or excessive pressure.
2. Any opening, disassembly, repair or modification carried out by unauthorised personnel will invalidate the warranty.
3. The use of non-original or non-certified accessories (e.g. chargers, batteries, cables) may compromise the device and void the warranty.
4. Contact with liquids, moisture, rain, snow or condensation is not covered by the warranty.
5. The device's resistance to dust, sand, dirt or other abrasive particles is not guaranteed.
6. Normal cosmetic wear and tear (scratches, discolouration, abrasions) is not covered by the warranty.
7. Gradual reduction in battery capacity is considered normal wear and tear and does not constitute a manufacturing defect.
8. Damage caused by extreme temperatures (high or low) is not covered by the warranty.
9. Direct exposure to heat sources may damage the device and void the warranty.
10. Use in explosive (ATEX) or flammable environments is strictly prohibited.
11. Do not use the device near fuels, chemical vapours or combustible materials.
12. Damage caused by natural events (lightning, fire, floods, earthquakes) is not covered by the warranty.
13. The use of modified firmware, root, jailbreak or unauthorised software invalidates the warranty.
14. The warranty does not cover damage resulting from malware or improper use of the software.
15. Data loss due to misuse or tampering by the user is not covered by the warranty.
16. Expenses for software reinstallation or data recovery resulting from misuse or tampering are not covered.
17. The warranty does not cover damage to connectors due to misuse or force.
18. Any damage to the charging port resulting from faulty or incorrectly inserted cables is not covered.
19. Do not use chargers or power supplies with voltages and currents that do not comply with network specifications or are not certified.
20. Overcharging the battery using uncertified chargers will void the warranty.

21. Do not expose the device to strong magnetic fields or high-voltage equipment.
22. The warranty does not cover damage from electromagnetic interference.
23. Use of the device in proximity to sensitive medical equipment is prohibited.
24. The device must not be used as a tool for purposes other than those for which it was designed.
25. Do not expose the device to open flames or direct heat sources (ovens, heaters, radiators).
26. The battery must not be punctured, compressed or incinerated.
27. Do not charge the device in conditions that prevent heat dissipation.
28. Do not expose the device to corrosive liquids, aggressive detergents, acids or solvents.
29. The warranty does not cover damage caused by cleaning with unsuitable products.
30. Do not use the device in the rain or in environments with high humidity.
31. Do not use the device in environments with heavy condensation.
32. Do not use the device in environments with fine dust or industrial fumes.
33. Do not sit, walk or place heavy objects on the device.
34. Do not intentionally bend, twist or deform the device.
35. Do not use the device while refuelling.
36. Do not leave the device unattended in direct sunlight or in closed environments with high temperatures.
37. The use of the device by minors must be supervised.
38. Small or removable parts may pose a choking hazard.
39. Do not use the device in water (sea, swimming pool).
40. The warranty does not cover damage caused by oxidation of electrical contacts.
41. Do not use the device in areas subject to ionising radiation.
42. Do not attempt to replace the battery: risk of damage and invalidation of the warranty.
43. Do not use the device with counterfeit batteries or batteries of unknown origin.
44. The warranty does not cover damage resulting from use of the device as a physical medium.
45. Do not use the device in a manner that does not comply with current radio communications regulations.
46. Any use that does not comply with the manufacturer's instructions is considered improper and is not covered by the warranty.
47. Do not modify, remove or alter the device's labels, serial numbers or trademarks.
48. The warranty does not cover devices with illegible, removed or tampered serial numbers.
49. Use of the device in hospitals or medical facilities must comply with internal regulations; the manufacturer is not responsible for any interference.
50. The warranty does not cover damage resulting from the installation of unofficial applications that compromise the security or integrity of the system.
51. Do not insert metal objects into the device's connectors or sockets.

52. Do not use the device in environments subject to continuous mechanical vibration (e.g. heavy industrial machinery).
53. Do not use the device as a recording or surveillance tool in violation of applicable privacy laws.
54. Do not leave the device unattended while charging for long periods of time.
55. Do not use faulty extension cords or adapters to charge the device.
56. The warranty does not cover damage due to power surges from unstabilised generators.
57. Do not insert connectors with excessive force or improperly.
58. Do not use connectors that are damaged, counterfeit or do not comply with standards.
59. Do not attempt to charge the device with improvised power sources (e.g. uncertified solar panels, modified cables).
60. Do not use the device as an integrated component in other electronic equipment without the manufacturer's authorisation.
61. Do not use the device as a physical support for heavy objects or as a base.
62. Do not expose the device to intense electrostatic fields (e.g. ESD discharges in industrial environments).
63. Do not use the device for underwater diving.
64. Do not use the device in microwave ovens or other domestic appliances.
65. Do not place the device in washing machines, tumble dryers or dishwashers.
66. Do not leave the device in dusty environments.
67. Do not expose the device to air compressors or high-pressure jets.
68. Do not remove or replace internal or external components.
69. Do not install uncertified magnetic accessories that may interfere with internal sensors.
70. Do not use the device for tracking or location applications that violate the privacy of others.
71. Do not leave the device connected to a charger in environments where there is a risk of overheating.
72. Do not leave the device in contact with pets that could damage it or ingest parts of it.
73. Do not expose the device to oily substances, industrial greases or lubricating fluids.
74. Do not connect the device to vehicle electrical systems without certified adapters.
75. Any use of the device that does not comply with the manufacturer's official instructions constitutes misuse and voids the warranty.
76. The warranty does not cover theft or loss.

## **Warranty Conditions and Limitations of Use – Technical Sports T-shirt – All models**

---

### **1. Subject of the Conditions**

- 1.1. This garment (hereinafter referred to as the "T-shirt") is intended for personal, sporting and recreational use.
  - 1.2. The T-shirt is made from high-quality technical materials, however its durability and integrity depend on compliance with these conditions.
  - 1.3. Any misuse or improper treatment will invalidate the legal warranty coverage on the product.
- 

### **2. Duration of the Warranty**

- 2.1. The warranty covers manufacturing defects only and does not cover damage resulting from wear and tear or improper treatment.
  - 2.2. The warranty does not cover normal loss of colour, elasticity or fit resulting from normal use.
  - 2.3. The duration of the warranty is limited to the period defined by the manufacturer in the contractual conditions and does not extend following unauthorised repairs or customisations.
- 

### **3. Limitations and Exclusions**

#### **3.1. Washing and maintenance**

- 3.1.1. Do not wash the T-shirt at temperatures above 30° Celsius.
- 3.1.2. Do not use bleach, solvents or aggressive chemicals.
- 3.1.3. Do not tumble dry the T-shirt at high temperatures.
- 3.1.4. Do not iron.
- 3.1.5. Do not leave the T-shirt immersed in water or detergent for prolonged periods.

#### **3.2. Improper use**

- 3.2.1. Do not use the T-shirt as a rag or cleaning cloth.
- 3.2.2. Do not use the T-shirt as workwear in industrial environments or environments with chemical hazards.
- 3.2.3. Do not wear the T-shirt for activities involving contact with oily, paint or flammable substances.
- 3.2.4. Do not use the T-shirt as personal protective equipment (PPE).

#### **3.3. Handling and alterations**

- 3.3.1. Do not remove or alter labels and internal stitching.
- 3.3.2. Do not dye or bleach the T-shirt with unauthorised chemicals.
- 3.3.3. Do not apply patches, logos or prints.
- 3.3.4. Do not cut, sew or alter the T-shirt.
- 3.3.5. Do not attempt to repair the fabric using non-compliant DIY methods.

### **3.4. Environmental conditions**

- 3.4.1. Do not store the T-shirt in damp or mouldy environments.
- 3.4.2. Do not store the T-shirt in contact with oily or chemical materials.
- 3.4.3. Do not use the T-shirt in environments with open flames or sparks.
- 3.4.4. Do not leave the T-shirt wet and crumpled in bags or lockers.

### **3.5. Prohibited and dangerous uses**

- 3.5.1. Do not use the T-shirt to cover electronic devices that are in operation.
- 3.5.2. Do not use the T-shirt to hold or transport objects.
- 3.5.3. Do not use the T-shirt as a rope, tie or fastening element.
- 3.5.4. Do not use the T-shirt as protection against harmful substances or impacts.

---

## **4. User responsibility**

- 4.1. The user is responsible for washing, drying and storing the T-shirt correctly.
- 4.2. The user must strictly comply with the instructions provided.
- 4.3. The user cannot claim compensation from the manufacturer for damage resulting from improper use.

---

## **5. Exclusion of Liability**

- 5.1. The manufacturer is not liable for indirect damage resulting from improper use of the T-shirt.
  - 5.2. The manufacturer is not liable for aesthetic damage due to non-compliant treatments.
  - 5.3. The manufacturer is not liable for any loss of collectible value resulting from improper use, incorrect washing or abusive customisation.
-

### **Appendix – Complete List of Improper Uses and Treatments of the T-shirt**

1. Washing above 30°C.
2. Use of bleach.
3. Use of solvents.
4. Tumble drying at high temperatures.
5. Prolonged immersion in water.
6. Use as a rag.
7. Use as a uniform in chemical environments.
8. Contact with oils or paints.
9. Use as PPE.
10. Slipping on concrete.
11. Intentional cuts.
12. Hand-modified seams.
13. Removal of internal labels.
14. Illegal dyeing.
15. Chemical discolouration.
16. Application of patches with irons.
17. Use of unsuitable adhesives.
18. Application of unauthorised logos.
19. Attempts at DIY repairs.
20. Storage in damp environments.
21. Storage in mouldy environments.
22. Contact with industrial greases.
23. Contact with aggressive solvents.
24. Exposure to open flames.
25. Exposure to sparks.
26. Leaving a wet T-shirt in your bag.
27. Use as a blanket.
28. Use as a curtain.
29. Covering electronic devices.
30. Use as a container.
31. Use as a rope.
32. Use as a tie.
33. Use as a fastening tool.
34. Use as impact protection.
35. Use as protection against harmful substances.
36. Washing with garments that release colour.
37. Use in swimming pools with aggressive chlorine.
38. Use in the sea without immediate rinsing.
39. Storage in a crumpled state.
40. Storage in sealed plastic bags when damp.

## SCIENCE TO PERFORM

41. Drying directly on radiators.
42. Use during activities involving chemical hazards.
43. Use during heavy industrial activities.
44. Customisation with permanent markers.
45. Application of unofficial numbers.
46. Application of unauthorised sponsors.
47. Application of glitter, glue or paint.
48. Use as wind protection in extreme environments.
49. Use as a cover for hot surfaces.
50. Use as a support for heavy objects.
51. Washing without following delicate cycles.
52. Use as a cloth in the car.
53. Use as a beach towel.
54. Use as floor protection.
55. Use as an insulating layer in construction.
56. Use as a blanket when camping.
57. Use as a storage bag.
58. Storage in contact with rusty metals.
59. Storage in contact with dirty surfaces.
60. Storage in environments with animals.
61. Contact with petrol.
62. Contact with diesel fuel.
63. Contact with workshop solvents.
64. Use during spray painting.
65. Use as protection against construction dust.
66. Use as an improvised filter.
67. Use as a medical bandage.
68. Use as a strap for carrying objects.
69. Use as a cover for bicycles or motorcycles.
70. Use in unauthorised commercial contexts.
71. Use for promoting competing brands.
72. Alteration of official logos.
73. Alteration of official colours.
74. Cutting without authorisation.
75. Attachment of buttons or zips.
76. Use as luggage protection.
77. Use as a shoe cloth.
78. Use as improvised covering.
79. Any other use not in accordance with the official instructions.
